**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

In order for a free market to work we need competition. There are too few broadband providers. I do NOT want a price hike for the price of internet and phone!

Your role is to protect the consumer. DO YOUR JOB! Protect consumers and slow a competitive internet marketplace.

In many cases the lack of competition is not only costly, it makes growth stagnant. We are the richest country in the US, yet many American consumers struggle for decent internet service. I have experienced the lack of adequate broadband frequently and many of my family members have felt the same way.

Please allow competition. The existing internet companies will still continue to make money and dominate the market.
